Hello everyone:

This message includes important information for any Library employees who will be coming into direct contact with Library users (e.g. meeting them for appointments or assisting with locker pickups).

If you are in one or both of these groups, please register for a training session at <https://emails.illinois.edu/newsletter/894132786.html>.

The two-hour training will cover usage of the Safer Illinois app and will provide tips for interacting with people about the building requirements. While this training course is intended for the Wellness Support Associates, IHR is making it broadly available. It will provide good background for anyone coming into contact with Library patrons.

Please note that we are still waiting on specific information from campus, which will allow us to develop Library-specific procedures for the fall semester. As those procedures are developed, we will communicate them broadly.

Chris
