III. Additional Information

Material should be transferred in the order in which the records creator maintained it. A letter briefly identifying the material and describing the activity to which it relates should accompany the shipment.

All information formats (e.g., published, typescript, audio-visual, and electronic data, such as computer disks and files) are appropriate for consideration for transfer. For documents in formats requiring any machine intervention, such as videotapes, kinescopes, and all computer files, consideration should be given to transferring the equipment needed to access the documents or, preferably, converting the documents to a format accessible to the Archives' users. Early consultation with the Archivist is strongly encouraged for all such materials.
This list is intended as a general guide. If there are questions about records not listed here or questions about the retention or disposal of specific record series, please contact William Maher at (217) 333-0798.
