

Search, Discovery, and Deliver

Affinity Groups: Cataloging and Metadata; Electronic Resources; Repositories, Preservation, and Access

Replaces: Discovery and Delivery Study Team (DDST), Integrated System Coordinating Committee (ISCC)

Responsible Library Units: No single unit in the Library has primary responsibility in this domain.

Charge

- The work group is responsible for the Library's search and discovery services, especially those services which cross multiple domains, formats, access systems, or vendor products.
- This includes policies, procedures, and documentation to optimize discovery and delivery of library content for use by the UIUC community and partners.
- This also includes selecting, implementing, and managing discovery and delivery systems, and quality assurance practices.

Membership

Initially chaired by the Information Systems Research & Development Librarian. Initial rotation after two years. [10 members]

- Bill Mischo, Information Systems Research and Development Librarian (chair)
- Vacant (vice-chair)
- Susan Avery, Instructional Services Librarian
- Kirstin Dougan, Music and Performing Arts Librarian
- Jay Heldreth, Access and Mobile Services Research Programmer [Also: Web Team]
- Lisa Hinchliffe, Coordinator for Information Literacy Services and Instruction
- Robert Manaster, Research Programmer [Also: Repositories, Preservation, and Access]
- Michael Norman, Head of Content Access Management [Also: Cataloging and Metadata]
- Cherié Weible, Head of Central Access Services Sarah Williams, Life Sciences Data Services Librarian

Rules

- This group is responsible for cross-collection, web-scale discovery, currently provided by the locally-developed Easy Search system.
- This group is also responsible for consulting with the Repositories, Preservation, and Access group on the design and user services aspects of various access systems such as Contentdm, Veridian, etc., especially in regard to how to optimize the discoverability of content in those systems.
- This group, working with the Cataloging and Metadata group, will be responsible for representing the Library and working with CARLI on the Voyager replacement.
- This group is responsible for end-user documentation, publicity, and outreach related to Library search, discovery, and access systems.
- Working with the Staff Development & Training Committee (SDTC), it is also responsible for training Library staff in the use of these systems.
- Working with the Web group, this group is also responsible for the usability and accessibility of various search, discovery, and delivery systems, including support for mobile devices.
