Attachment B
Informed Consent Form for the Student Competition
Undergraduate Library Student/Library Collaborative

Title of Project: Student/Library Collaborative Mobile Application Development

Responsible Principal Investigator: Lori Mestre, Head, Undergraduate Library

Other Investigator(s): Jim Hahn, Orientation Services and Environments Librarian; David Ward, Reference Services Librarian

Purpose of the Study: This study investigates methods for designing mobile library and research applications using teams of students from various disciplines participating in a competition.

1. Procedures to be followed: The study will consist of a one-time interview session conducted after the student mobile app design contest has been completed and judging has ended. The interview will take approximately 60 minutes to complete. The interview will consist of questions related to the design process participants followed in creating their mobile applications, and their reasons for choosing to design the app they made.

2. Discomforts and Risks: There are no known risks beyond those experienced in everyday ordinary life. Any discomfort participants experience will be comparable to that of a student taking a quiz or test.

3. Benefits: This research will help the library to design an ongoing program for collaborating with students on the design of mobile library applications to increase use of library resources and services.

4. Statement of Confidentiality: Investigators will not record student names with responses. Interview notes, observation sheets and consent forms will be stored in a locked filing cabinet in a locked office.

5. Whom to contact: Please contact Lori Mestre with any questions, or concerns about the research. Questions about research subject rights can be directed to the Institutional Review Board at 217-333-2670 or via email at irb@illinois.edu.

6. Compensation: Participants will receive a $10.00 gift card.

7. Cost of participating: There is no cost for participating.

8. Voluntariness: Participation is voluntary. The participant may discontinue at anytime without any penalty or loss of benefits to which the participant is otherwise entitled. The decision to participate, decline, or withdraw from participation will have no
effect on the subject's grades at, status at, or future relations with the University of Illinois.

9. Dissemination: Researcher will share the results in conference presentations and academic papers. Individual student names are not recorded with responses.

- I am 18 years of age or older.
- I have read and understand the above consent form and voluntarily agree to participate in this study.
- I will be given a copy of this consent form for your records.
