

Attachment K
Email/Flyer and in Library Solicitation to Recruit Students
for Usability Studies
Undergraduate Library Student/Library Collaborative

Hi,

We are studying a mobile app we developed for students to get library help from an Android phone (*or current app being reviewed*).

Would you be willing to participate in a study on the app? You would use the app and answer some questions about your experience.

For your participation (approximately 30 minutes) you will receive a \$10 Espresso Royale Gift Card.

If you are interested please contact Joe Troy (*this line for emails and flyers*)

[Note: if student is interested we will review the consent form with them and allow them time to re-read the form and sign]
