

## New @ Funk Library

### Funk Library “Solving the World’s Challenges” Series

Funk Library is launching a new speaker series, “Solving the World’s Challenges,” where campus researchers from units connected to Funk share their research or work related to a selected world challenge. Funk Library serves a number of areas — agricultural, consumer and environmental sciences; urban & regional planning; landscape architecture; biological sciences; natural history, and more. This series brings together researchers from these areas to share perspectives from a variety of disciplines in one forum. The topic of this first series program is ‘climate change’. It will be held on Tuesday, April 3, 2:30-3:30 pm on the main floor of Funk Library (which is the 2nd floor of our building). A 30 minute reception will follow. Panelists will be announced at a future date. *Be sure to get this on your calendars!*

### ACES Collaborative Learning Center — not just for ACES students!

The ACES Collaborative Learning Center (ACLC) opened in October 2017 to provide support for students needing academic assistance. ACLC provides peer tutoring for common required courses (e.g., accounting, economics, finance, statistics, math, chemistry, history, biology, psychology, and more). The ACLC is located in Funk Library, on the northeast corner of the library near the circulation desk, next to the print Periodicals area. *It is available to students in other colleges as well as those from the College of ACES.* For hours and more information, see the ACLC website at <https://publish.illinois.edu/acescollaborativelearningcenter/>

## The Library's Scholarly Commons

The Library's Scholarly Commons provides a suite of research support services through experts from the Scholarly Commons, Library subject specialists, and partners across campus. Service areas include author rights and copyright, data discovery, data management, data purchase program, digitization, geographic information systems (GIS), repository services, statistical consulting, survey research (inc. creation, analysis), undergraduate research, usability testing (usability test lab), and more.

The following are Scholarly Commons partners:

- Center for Innovation in Teaching & Learning (CITL) Data Analytics
- Technology Services' Online Teaching and Learning unit
- Graduate College
- The Illinois Digital Environment for Access to Learning and Scholarship (IDEALS)
- Institute for Computing in Humanities, Arts, and Social Science (I-CHASS)
- Illinois Informatics Institute ("I-cubed")
- Media Commons at the Undergraduate Library
- Student Money Management Center (SMMC)
- Survey Research Laboratory

The Scholarly Commons has 7 dual monitor PCs, a Usability Lab with synced Morae Observer workstation, 2 Macs, 2 Lenovo Thinkpad Laptops, 2 11x17 flatbed scanners—Plustek Optibook A-300 and Epson GT-20000, 21x22x47 overhead Book2Net scanner, and more. Plus it has a variety of software products, including ArcGIS, ARTstor, ATLAS.ti, Audacity, Camtasia Studio, EverNote, GIMP, Google Earth Pro, IBM SPSS Statistics, Morae, Oxygen XML Editor, QSR Nvivo, QGIS, R, Rstudio, SAS, Stata, and Stella.

Sponsored /co-sponsored and promoted events include GIS Day, the Scholarly Commons Speakers Series (next one is speaker Ed Ayers presenting Twenty-Five Years in Digital History and Counting, March 29), and Image of Research competitions.

Consultations can be scheduled with [Scholarly Commons experts](https://www.library.illinois.edu/sc/about_us/resources_experts/) ([https://www.library.illinois.edu/sc/about\\_us/resources\\_experts/](https://www.library.illinois.edu/sc/about_us/resources_experts/)) at <https://tinyurl.com/y8vrh5on>.

The Scholarly Commons supports two *popular* research support services

### Statistical Consulting Services

In partnership with CITL Data Analytics and Technology Services, the Scholarly Commons is hosting [Statistical Consulting Services](https://www.library.illinois.edu/sc/statistical-consulting): free consultations with graduate students with expertise in a variety of statistical software, including **R**, **Stata**, **SPSS** and **SAS**. More at <https://www.library.illinois.edu/sc/statistical-consulting>

### Survey Research Lab

The [Survey Research Laboratory](https://www.library.illinois.edu/sc/survey-research-lab) provides survey consulting services in the Scholarly Commons on Thursdays from 2-5 pm when classes are in session. Walk-ins are welcome, but patrons are encouraged to schedule appointments in advance to avoid possible wait times. To schedule a consultation with the Survey Research Lab, [email the Scholarly Commons at sc@library.illinois.edu](mailto:sc@library.illinois.edu)

# New from the Library

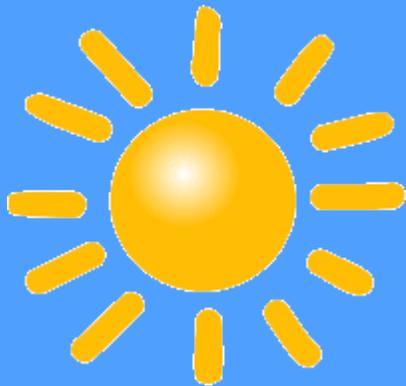

Campus students, faculty, and staff have access to the following new Library resources ...

## [Dryad Digital Repository](#) (Vouchers now available for Dryad data deposits!)

The University Library has joined [Dryad](http://datadryad.org/) (<http://datadryad.org/>), and with its organizational membership the Library receives a limited number of fee waiver vouchers for data deposits into the Dryad Digital Repository. When you are ready to deposit data into Dryad, you can request a voucher via our online form at <https://www.library.illinois.edu/rds/dryad-vouchers/>. For more info about Dryad, see the [Dryad FAQs](#). If Dryad does not meet your data publication needs, the [Illinois Data Bank](https://databank.illinois.edu/) (<https://databank.illinois.edu/>) is a fee-free service available to Illinois researchers. Additional information and help are available from the [Research Data Service](https://www.library.illinois.edu/rds/) (<https://www.library.illinois.edu/rds/>).

## [Ethnologue: Languages of the World](#)

The Library now has full access to Ethnologue: Languages of the World, which includes information on almost 8000 languages worldwide. Now library patrons can easily navigate language and country profiles, maps, statistics, and download datasets. Please note that this is NOT a language-learning tool. We have Rosetta Stone for learning a language. To access the database: <https://tinyurl.com/y8mutotp>. If the link does not work, search the Library's Online Journals and Databases by title (Ethnologue): <https://sfx.carli.illinois.edu/sfxuiu/az>. For more on Ethnologue: <https://www.ethnologue.com/>.

## Meet Sara Benson, Copyright Librarian

[Sara Benson, Copyright Librarian](#), and Assistant Professor, University Library is an affiliate in the Scholarly Commons and Publishing Unit. - Sarah is a lawyer whose previous experience included practice at a large international law firm and ten years of teaching experience at the UI College of Law. Sarah provides guidance (though not legal advice) to UI researchers, faculty, and students about copyright related information. Check out Sara's guides (at <http://guides.library.illinois.edu/>):

- \* [Author's Rights and Copyright](#)
- \* [Copyright and Digitization of Library Materials](#)
- \* [Copyright for Graduate Students: Theses and Dissertations](#)
- \* [Copyright Guide for Undergraduate Journals](#)
- \* [Copyright Reference Guide](#)
- \* [Course Materials and Copyright for Professors](#)

Sarah produces [Copyright Chat Podcasts](#) where she discusses copyright issues with experts. She can be contacted at [srbenson@illinois.edu](mailto:srbenson@illinois.edu)

## More Savvy Researchers' Workshops Than Ever !!

The Savvy Researcher Series has more topics and more sessions than ever to connect you with the information you need to do your scholarly work !

- Choosing a Citation Manager
- An Introduction to Prezi
- Organize Your Life: Productivity Tools and Personal Information Management
- Introduction to Infographics Using Piktochart
- Demystify the Literature Review and Start Your Research
- Curating Your Online Scholarly Identity to Maximize the Reach and Impact of Your Work
- Understanding Impact: Impact Factor and Other Bibliometrics
- GIS for Research I: Introduction to GIS Concepts, Software, and Data
- A Crash Course in Open Access and Publishing Your Research in OA
- GIS for Research II: GIS Research, Data Management, and Visualization
- Internet Privacy: Filter Bubbles and the Deep ng Impact: Impact Factor and Other Bibliometrics
- Do You Know Your Fair Use Rights?
- And LOTS MORE !!

For a complete list of Savvy Researcher sessions with links to details, see <https://www.library.illinois.edu/sc/workshops/savvy-researcher-calendar/> !

# Resource Highlight - Web of Science

The [Web of Science](#) platform from Clarivate Analytics (formerly produced by Thomson Reuters) provides access to several multidisciplinary and subject research databases—some are Clarivate Analytics products and some are databases from other database producers. Web of Science has many useful features and research resources and tools, such as InCites, Journal Citation Reports, Essential Science Indicators, Endnote citation manager, and Publons.

The University Library subscription to Web of Science requires netid/password when using non-campus computers. Our subscription includes the following databases:

Web of Science Core Collection:

- Science Citation Index Expanded (1900-present)
- Social Sciences Citation Index (1900-present)
- Arts & Humanities Citation Index (1975-present)
- Conference Proceedings Citation Index- Science (1990-present)
- Conference Proceedings Citation Index- Social Science & Humanities (1990-present)
- Book Citation Index– Science (2005-present)
- Book Citation Index– Social Sciences & Humanities (2005-present)
- Emerging Sources Citation Index (2015-present)
- Current Chemical Reactions (1985-present) (*Includes Institut National de la Propriete Industrielle structure data back to 1840*)
- Index Chemicus (1993-present)

Other Products included:

- Biological Abstracts (1926--present)
- BIOSIS Citation Index (1969-present)
- CABI: CAB Abstracts and Global Health® (1910-present)
- Current Contents Connect (1998-present)
- Data Citation Index (1900-present)
- Derwent Innovations index (patents) (1963-present)
- FSTA® - the food science resource (1969-present)
- KCI-Korean Journal Database (1980-present)
- MEDLINE® (1950 present)
- Russian Science Citation Index (2005-present)
- SciELO Citation Index (Latin America, Portugal, Spain, and South Africa) (1997-present)
- Zoological Record (1864-present)

These databases can be searched together on the platform, or individually.

For more information, see [our WOS subscription list](#), which describes the contents of each database. Check out our [Web of Science guides](#) for information on how to search Web of Science. And contact me at [mmalliso@illinois.edu](mailto:mmalliso@illinois.edu) to arrange instruction sessions for your class on using Web of Science, OR to make an appointment for 1:1 sessions.
