About I-Share

I-Share is the online catalog for all resources shared between 82 academic research libraries in the state. University of Illinois student, faculty, and staff have borrowing privileges for a majority of these resources, and can request for items to be sent to any library in the system for pick up. If you cannot find an item in the UIUC collection, search here before you place an interlibrary loan request.

Choosing search terms

1. Choose specific terms closely related to your research topic.
2. Choose terms that you might use when discussing your topic with a colleague, including current jargon.
3. Include synonyms and abbreviations.
4. This search is not case sensitive.
5. The I-Share catalog also finds variant spellings and forms of a word.
