About ProQuest Dissertations and Theses:

ProQuest Dissertations and Theses (PQDT) is a multidisciplinary database that contains entries covering Arts, Business, Education, Humanities, Social Sciences, and the Behavioral, Natural and Physical Sciences. With over 3 million entries it is the most comprehensive dissertation and thesis collection in the world. It contains almost all dissertations written at the University of Illinois in full text since 1997 and a substantial amount of theses in full text.

Dates of Coverage:	Citations 1861; Abstracts 1980; Full Text 1997—present; updated weekly
Access:	<ol style="list-style-type: none"> 1) From the Funk Library homepage (http://www.library.illinois.edu/funkaces/) under “Quick Links” select “Find Theses and Dissertations,” then scroll down to the “ProQuest Digital Dissertations and Theses” heading and select the “ProQuest Digital Dissertations and Theses” link. 2) From the Funk Library homepage (http://www.library.illinois.edu/funkaces/), under “Quick Links” select “Online Journals & Databases” Search for “ProQuest Dissertations and Theses.” From next window click “ProQuest Databases” link. 3) From the University Library Gateway (http://www.library.illinois.edu/) under “Specialized Resources,” select “Dissertation Abstracts / Digital Dissertations.” From next window click “ProQuest Databases” link. <p><i>Note: When off campus log in with your UIUC NetId and password.</i></p>
Types of searches:	<ol style="list-style-type: none"> 1) Advanced Search: Default. Has more search bars for additional search terms. Select basic Boolean Operators and fields. Select field from drop down box that you would like search term(s) to be searched in. 2) Basic Search: Select from upper right corner. Enter 1 or more words. 3) Command Line Search: Use Boolean Operators with a much wider variety of fields and Operators for precision searching. Supports iterative searching (run, refine, run, refine, etc.) 4) Find Similar: Copy and paste text (50 or more words best) into box and select limit and display options for a list of similar results. 5) Browse: From the upper right corner of page click “Browse,” then “Dissertations and Theses” to browse “By Subject” then “By Location” (school location). Select and “View documents.” <p><i>Note: For all searches, all fields, including abstract and full text when available, will be searched for search terms.</i></p>
Boolean Operators:	<p>To <i>narrow</i> search results use AND in order to find articles with both terms. (x AND y)</p> <p>To <i>broaden</i> search results use OR in order to find articles with any of the terms. (x OR y)</p> <p>To <i>eliminate</i> terms and find articles that contain one term but not another use NOT. (x NOT y)</p> <p>See “Help” for other operators, e.g., NEAR, PRE, EXACT, LNK.</p>

Choosing search terms

1. Choose specific terms closely related to your research topic.
2. Choose terms that you might use when discussing your topic with a colleague, including current jargon.
3. Include synonyms and abbreviations.
4. This search is not case sensitive.
5. ProQuest Dissertations and Theses also finds variant spellings and forms of a word.

Hours:

<http://www.library.illinois.edu/>

Truncation / Wild-card symbols and proximity operators:	(*) retrieves variations of words — right-handed (e.g., ecolog* finds ecology, ecologist, and ecological); middle (e.g., Colo*r retrieves colour, color); (?) replaces a single character either inside or at the right end of a word (disrupt*rs will find disruptors and disrupters) (-) indicates a range when searching numerical fields (Ex. YR(2010-2014)) See “Help” for more characters
Phrase searching:	When searching for exact phrases make sure to use “quotation marks.” Also use “quotation marks” to signify exact spellings.
Narrow results by:	You can narrow your results by facets on the right of the results page, e.g., full text, subject, language, database, university/institution location, university/institution, index term (keyword), publication date.
Search within your results:	To search within a result list, you can use the “Search Within” search box at the bottom of the results page. Entering keywords into the “Search Within” search box will find keywords within the current result list.
More Like This:	On the right hand side of an article record page will be a “More Like This” section below it will provide articles in: “see similar documents,” “search with indexing terms,” and “see congressional documents.”
Search history:	Searches are saved for current session. Click “Recent Searches” in top bar of database page to access. Previous searches (sets) are numbered (e.g., S1, S2, S3) and can be re-searched individually or in combination. Actions = save search, delete, modify search, create alert, create RSS feed, and get link.

Find full text, save, export citation

Find Full Text:	If the Full Text is available through ProQuest Dissertations and Theses click on the “Full Text” or “Full Text-PDF” options in the result list or article record. If it is not available click on the Discover full text button. If the article is available through Discover Full Text, a link will appear below the “Online Full Text” heading. If not, links will be provided to search the library catalog for the journal or to request a copy through InterLibrary Loan (ILL).
To save, print, email, export, cite, or tag an abstract:	From the results page, check the box next to the desired articles, then in the upper blue bar select either save to my research, email, print, cite, or export/save. From the article record the check box “add to selected items” will, by default, be checked. In the upper blue bar select either save to my research, email, print, cite, or export/save, save to flow, or share. At the bottom of an article record is the option to tag.

My Research Account

Set Up an Account:	“Create a My Research Account” is in the upper, right-hand corner of the page. Enter in the required fields. Setting up an account allows you to save and organize documents and searches. It allows you to create alerts, RSS Feeds, Tags, and Shared Lists. You may also sync RefWorks to your account.
