Network Analysis of Libraries Used by Faculty, Staff, and APs

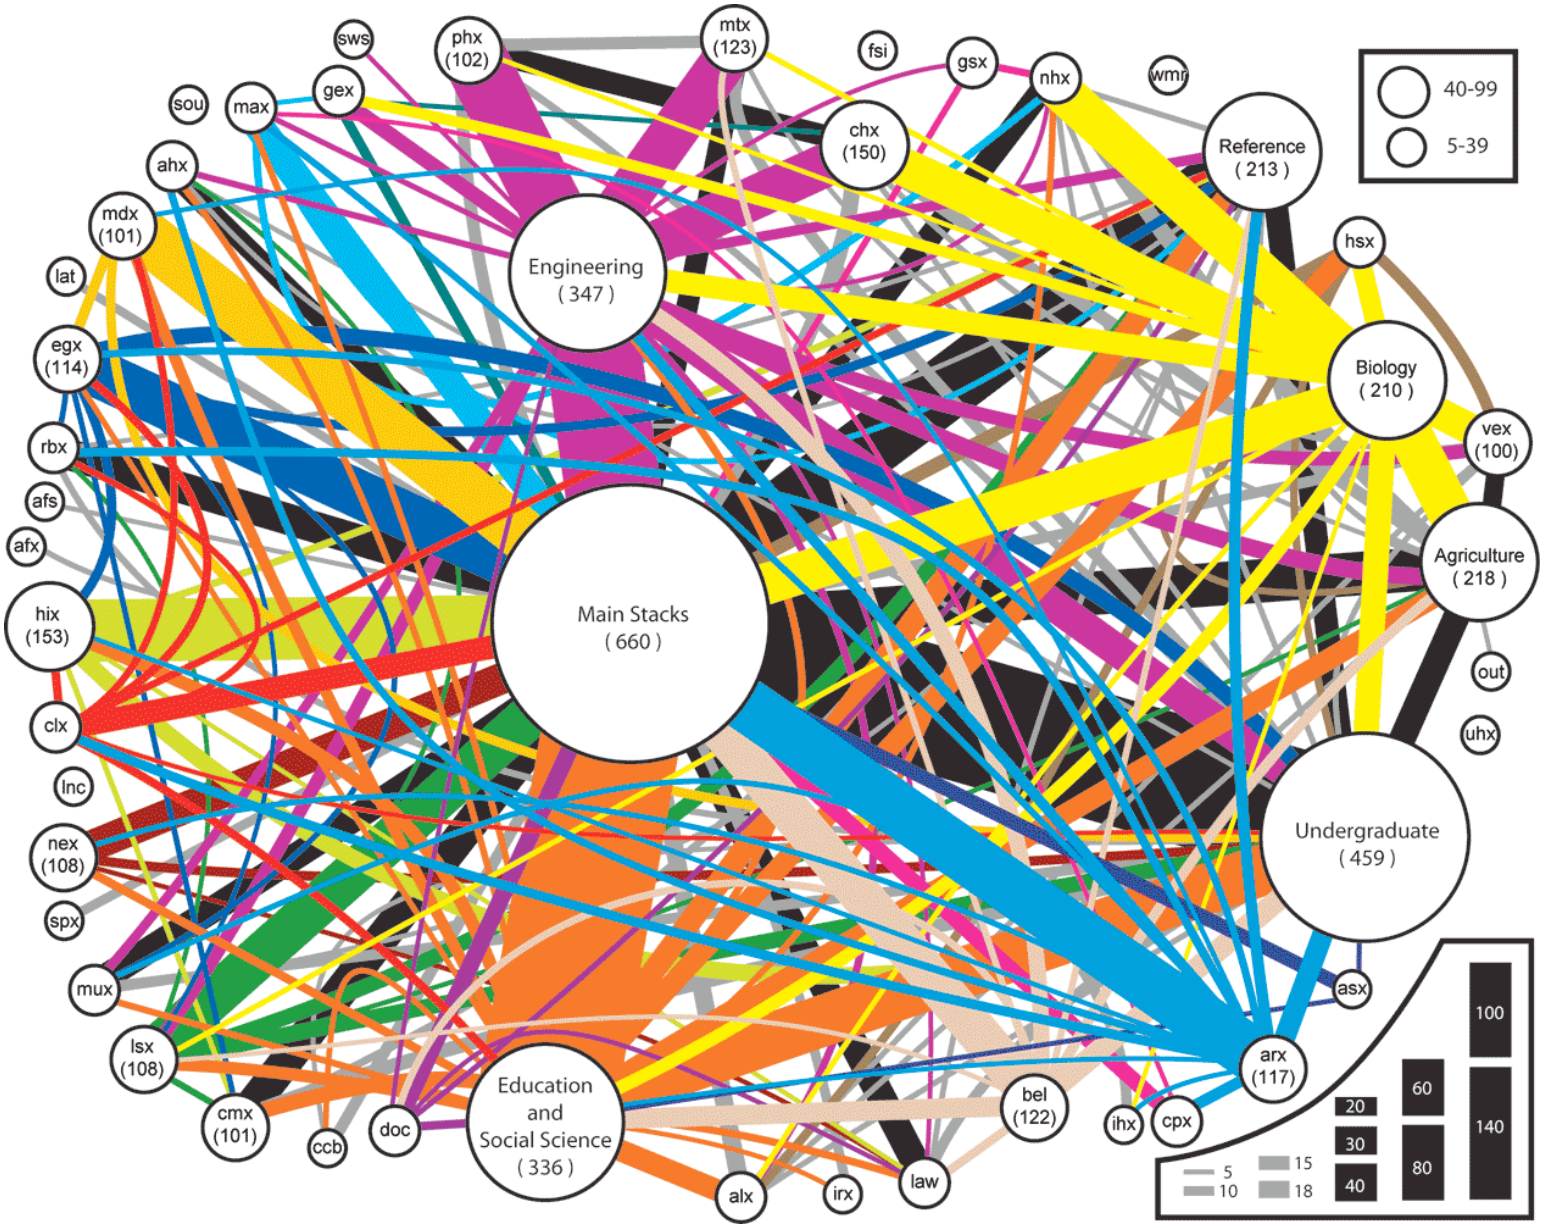
Arranged alphabetically

JoAnn Jacoby

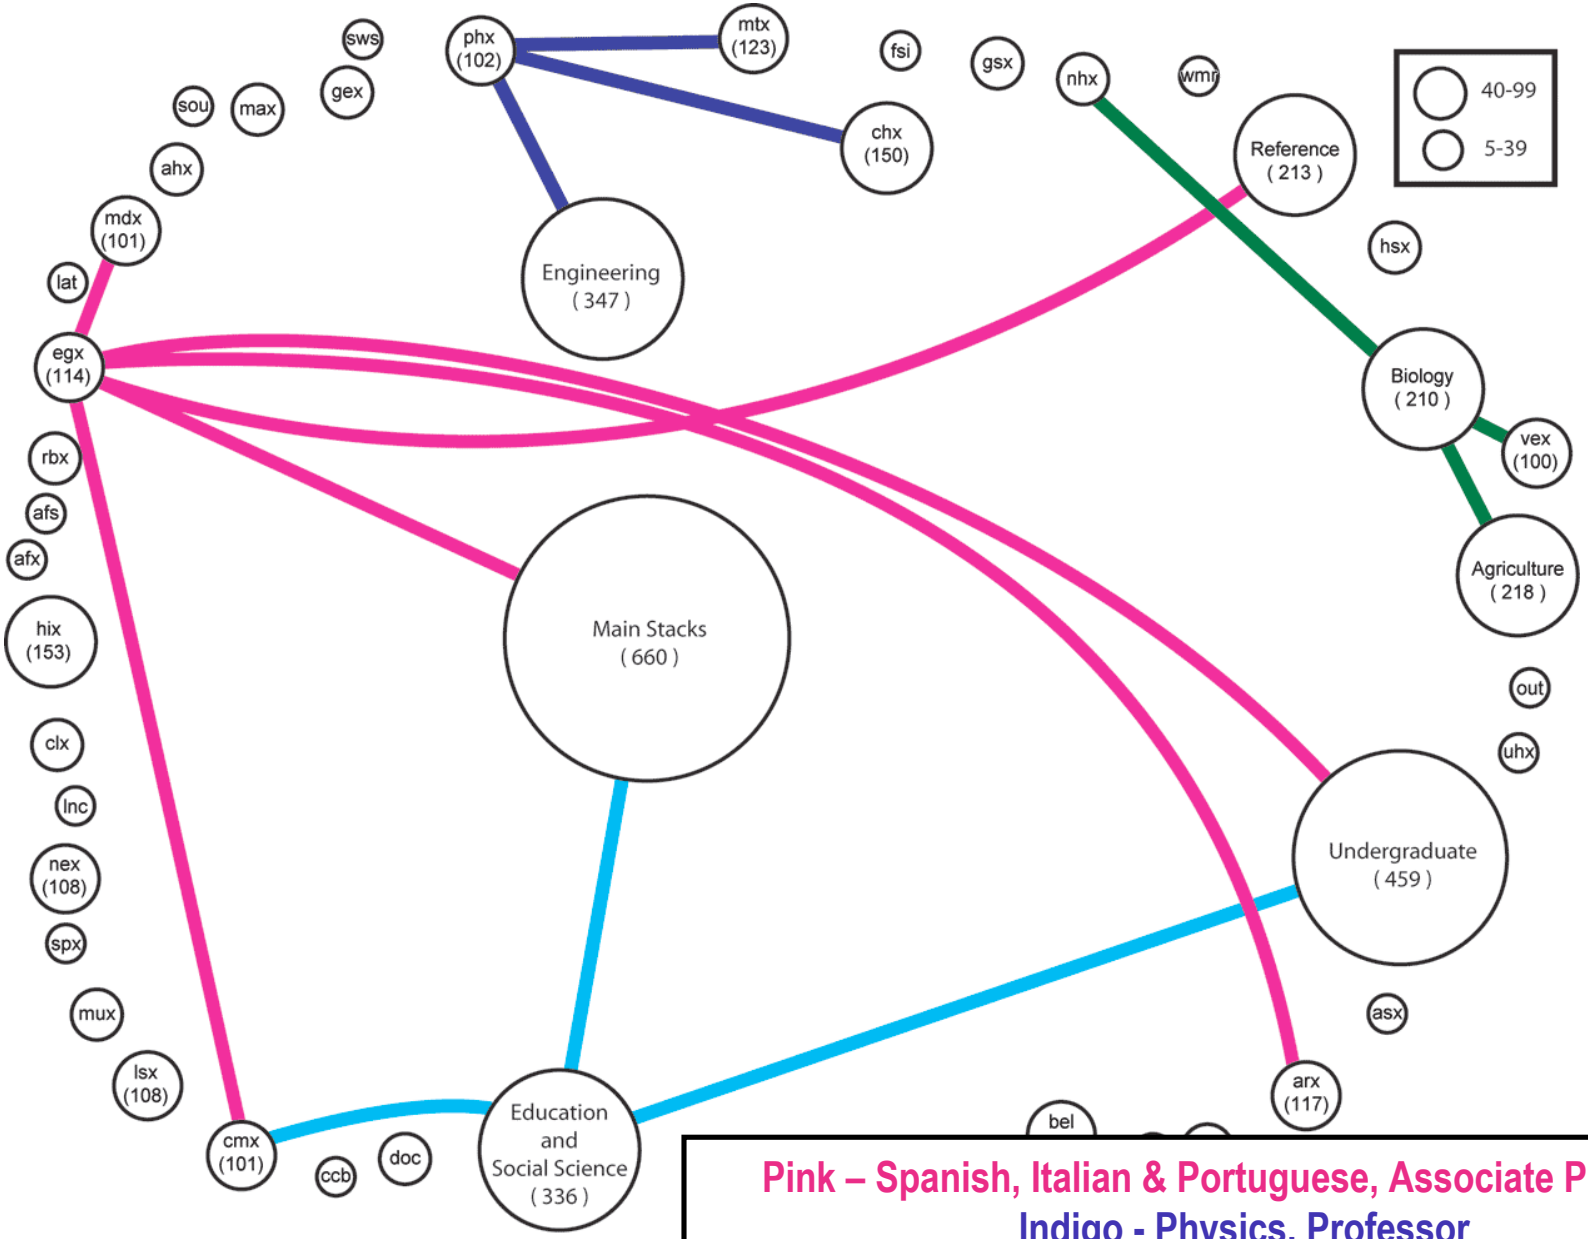
University Library
University of Illinois at Urbana-Champaign

Methods

- Data mined from the survey sent to all faculty & staff in Spring 2006 were used to create social network maps of UIUC Libraries
- Responses to “Indicate your primary library/ (ies)” were used to create network maps
  - Respondents could choose as many libraries as they pleased
- Reveals connections between departmental libraries from the users’ perspective



Network map of connections among all UIUC libraries. Lines were drawn when 5 or more respondents reported using both of the libraries. Selected nodes in color.



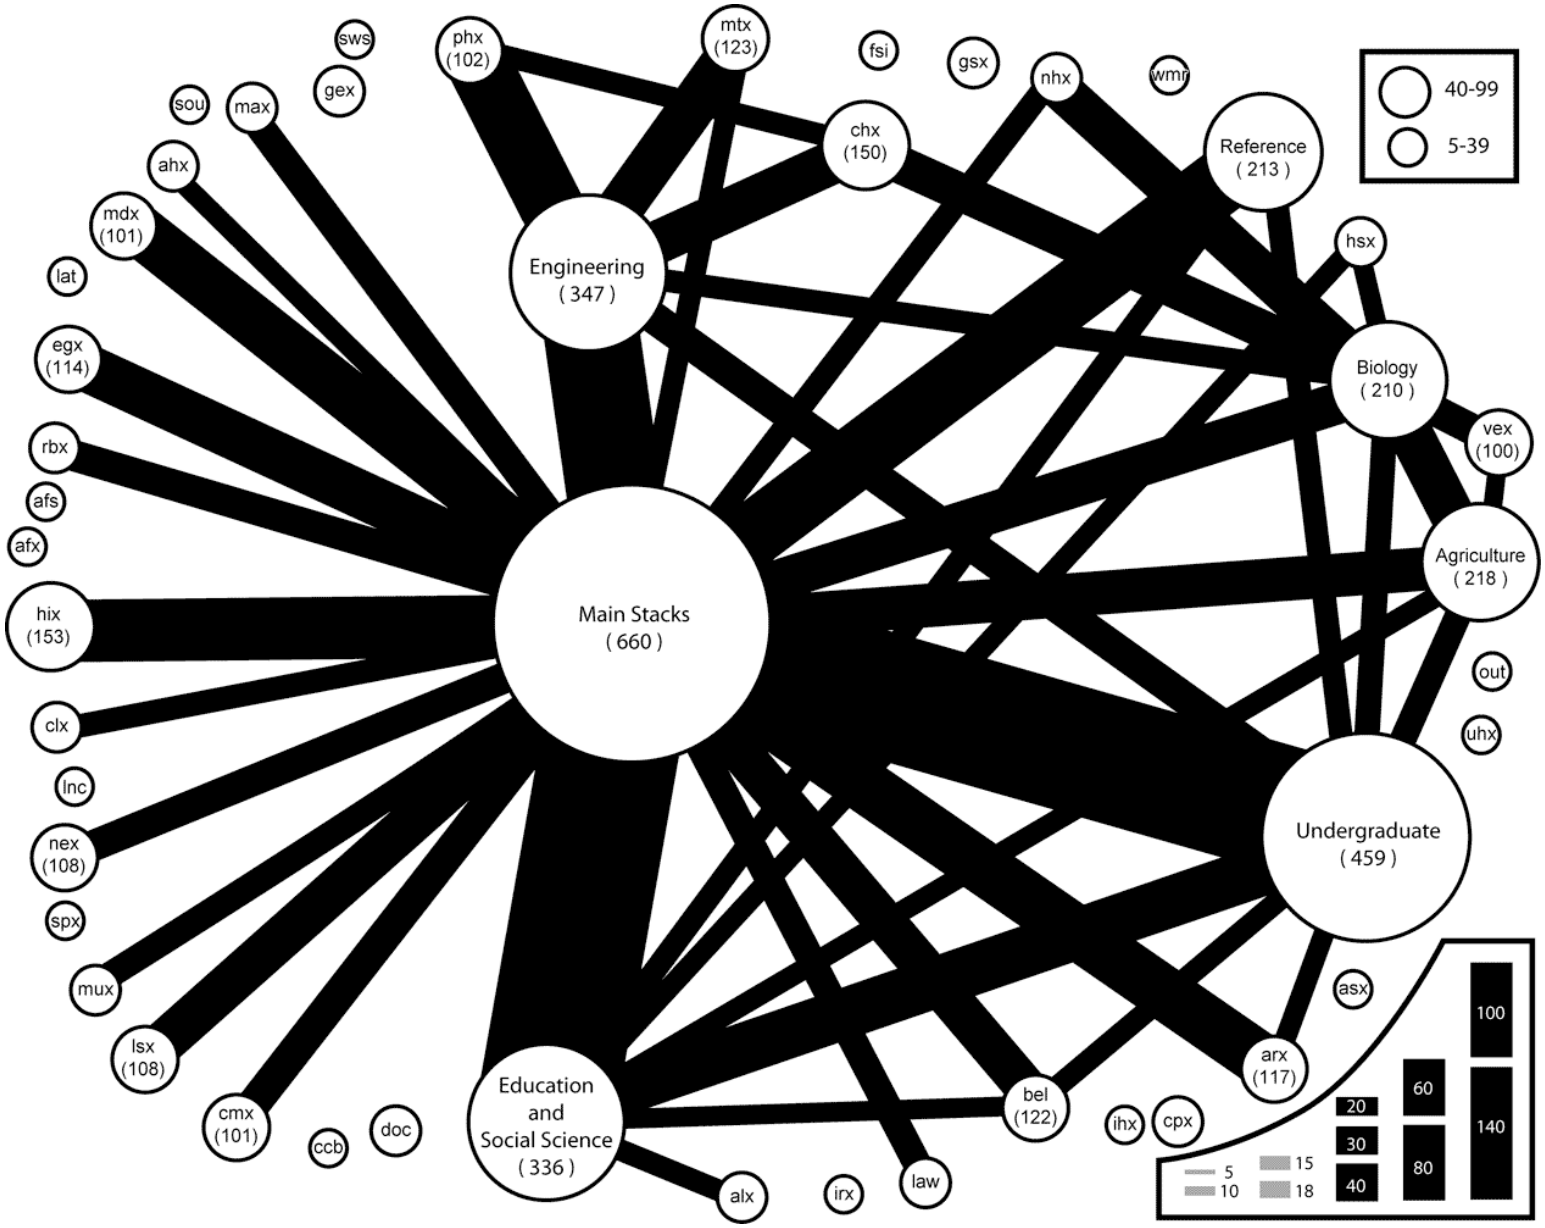
Some Individual Faculty

Pink – Spanish, Italian & Portuguese, Associate Professor

Indigo - Physics, Professor

Green - Agricultural Science (ACES), Academic Professional

Light Blue -Cinema Studies, Assistant Professor



Major connections - 20 or more respondents.

Network Graphs By Library, Listed Alphabetically

Note

Libraries with less than 5 connections to any other library are *not* displayed. These are:

- Fire Services Institute (affiliate)
- Lincoln Room
- Sousa Archives
- University High School Library
- Waste Management (affiliate)

Analysis

Status	2005-06 Total Head Count	Number of Respondents	Estimated Response Rate
Professors	862	181	21.0%
Assoc Professors	549	118	21.5%
Asst Professors	545	114	20.9%
Visiting Faculty	172	37	21.5%
Academic Professional	2133	647	30.3%
Other (Postdocs, GAs, Staff)	8763	253	2.9%
Headcount Staff/All funds	**13103***	**1350**	**10.3%**

* Distributed by a campus-mediated "massmail," the survey was sent to 12,399 (not 13103) individuals because the headcount at the time was less than the annual maximum. The response rate was therefore slightly higher than shown in this chart based on DMI figures.
