

## Changing the Return Date:

Alma video: [Working at the Circulation Desk](#)

If you need to change the Return Date for returned items, there are two options.

1. Before scanning in the returned items, click the “Override return date and time” field and select the date and time you want.

The screenshot shows the 'Manage Item Returns' interface. At the top, there are buttons for 'Clear List', 'Go to Patron services', and 'Exit'. Below this, there are two radio buttons for 'Place directly on hold shelf' (Yes/No). A search bar for 'Scan item barcode' is present. The 'Override return date and time' field is highlighted with an orange box and is currently empty.

This will override the return date and time for *all* items that you scan in during that session, unless you clear the “Override return date and time” field by clicking the “X” on the right side of that field. If you clear the field, then the returned items you scan after that will go back to using the current date and time.

The screenshot shows the 'Manage Item Returns' interface with the 'Override return date and time' field populated with '03/07/2020 01:00' and highlighted with an orange box. Below the form, there is a table with 2 items. The 'Return Date' column for both items is highlighted with an orange box.
